THE BISHOP (GOSLING) MYSELF LEADS IN  
 various passages of the book to the  
 conclusion that the government  
 is the only one to be trusted in  
 the Middle East.

From *Spindler* (Harcourt, Ltd., \$19.95), a 192-page book that Macmillan and its parent own and publish, titled *How to Get a Good Education*. The book is not only a good read, but it is also a good source of information for parents and teachers alike. It is a book that should be read by all who are interested in the education of our children. It is a book that should be read by all who are interested in the education of our children. In the case of the Marne (France), a 1998 study showed that the nitrate concentration in the groundwater had increased since 1980, and was linked to agricultural practices.

The French government has launched a series of measures to limit such contamination, such as the

use of fertilizers and pesticides, and the use of herbicides. The government has also launched a series of measures to limit the use of fertilizers and pesticides, and the use of herbicides.

What are the implications of the recent findings? According to the World Bank, implementing a strategy to control HIV is the only way to prevent the epidemic from becoming a major public health problem. The World Bank is currently working with the Government of the Philippines to develop a national HIV/AIDS strategy.

THESE DAYS IN THE U.S. AND ABROAD, the "information revolution" has the technological means to spread the word. But the message is not always the best. In the history of the industry, the "information revolution" has been a double-edged sword. On the one hand, it has allowed the industry to spread its message and to reach a wider audience. On the other hand, it has also allowed the industry to spread its message and to reach a wider audience.

**PEER TEACHING**  
The staff of the "New York City School of Leadership Development" (NYSLD) emphasize the value of teaching one another. Leadership development is not the final goal. The participants must learn to use their own leadership skills to help others.

According to reports from the American Red Cross, the number of American Red Cross hospitals and clinics serving the homeless in 1997 was 1,000. In 1998, the number of homeless people in the U.S. was 3.5 million, and the number of homeless people in the U.S. was 3.5 million.

## Pacquiao-Hoya clash looms as global spectacle

**By Mike Domingo**

MANILA (PNA) — Manny Pacquiao and Ricky Hoya are set to clash in a highly anticipated boxing match on May 2, 2010, in Las Vegas. The fight is expected to be a global spectacle, drawing millions of viewers worldwide. Pacquiao, the undefeated champion, will face Hoya, a rising star in the sport. The match is being promoted by Top Rank Boxing, and the venue is the MGM Grand Garden Arena. Tickets are already on sale, and the event is expected to be a major draw for the city.

**Boxing: PPV is key**

The fight is being promoted as a pay-per-view event, which is a common practice for high-profile boxing matches. This allows fans to watch the fight at their own convenience and pay only for the event they are interested in. The PPV model is a key factor in the success of such events, as it ensures that the promoters receive a significant portion of the revenue from the fight.
